

The Daily Gazetteer.

WEDNESDAY APRIL 18, 1744.

Rome, April 4.

IS Holiness lately protested, in a full Consistory, against the King of Sardinia's taking Possession of the City and Duchy of Placentia; and generally, against all the Articles in the Treaty of Worms, executed, or not executed, which are, or may be prejudicial to the Rights of the Holy See. The

Customs were, not long ago, let to Farm by publick Auction to the highest Bidder; when he who carried it, offer'd 465,300 Crowns, or 116,325 l. and was immediately declared a fair Purchaser, and gave a Note of his Security. His Eminence, Cardinal Pozzobonelli, Archbishop of Milan, received lately a Courier, with the agreeable News, that the Queen of Hungary had given Orders for giving him Possession, and restoring him the Temporalities of that See; which gives the highest Satisfaction to his Holiness, who is very desirous of cultivating a good Understanding with that Princess.

Naples, March 24. On the 10th arrived here the Militia Regiment of the Province of Molise. The same Morning, and on the 12th, the Third Battalion of the Swiss Regiments Vritz and Ischiodi began their March for St. Germano; as did, on the 14th, a Battalion of Royal Macedonia for the Confines of the Kingdom of Naples, towards the Ecclesiastical State. The same Day (the 12th) the King passed in Review the Horse Regiment Tarragona, and appointed Prince della Rocca Commander of all the Grenadiers of Terra di Lauro, with an Addition of 40 Crowns per Month to his usual Appointments. The King, during his Absence, has appointed a Regency, composed of three Secretaries of State, as Counsellors; and Don Michael Reggio, General of the Gallies, as President or Viceroy. On the 20th Instant, 18 Persons of the common Rank were arrested for Disturbance, by the Committee of the Inconfidants. The Accounts from Calabria are so favourable, that we hope to hear very soon the Country is quite free of the Sick-pest. The Letters which the Court received by an Express from thence on the 22d Instant, bring Advice, that no Persons have died at Reggio, and other Places that had been infected, for several Days together.

Ambler, April 4. The only Reason that his Sardinian Majesty ever thought to fortify the Passage of the Var, was in order to receive the Assistance of the English Men of War; as, on the other Hand, the only Cause of his quitting those Retrenchments, and abandoning the City of Nice, was the Arrival of the Combined Armies before those Places, while the Fleet of Admiral Matthews remains still at Port Mahon. The Prince of Conti, since he has been in Possession of that City, has imposed on it a Tax of no less than 300,000 Crowns, which, if levy'd, will ruin the greatest Part of the Inhabitants of that Place. But it is hoped, that, on a full Representation of the Matter, it will be moderated, if not remitted. The King of Sardinia is at Villafranca; his Army is reported to be very numerous, but we have certain Intelligence, that they don't consist of above 19,000 Men; tho' it is very certain, that he is strongly retrench'd; and that his Army cannot be forced without a great Effusion of blood. Our Infantry consists of 52 Battalions, of which 15 are under the Infant Don Philip, and 37 under the Prince of Conti. We expect, hourly, 102 Transports, under the Escort of six Gallies from Marseilles.

Dresden, April 14. The Court sets out on the 17th of this Month for the Fair at Leipzick, from whence it will go to Mauricebourg, and in the Beginning of the Month of June to Warlaw, in order to celebrate there the Feast of the Holy Sacrament, and to perform the necessary Ceremony of Signing the Universalia, for the convocation of a General Dyet at Grodno, which will be held there in the Beginning of October. We are not a little perplex'd at the present Situation of the King of the Two Sicilies, who has expressly renounced his Treaty of Neutrality, to which it he had continued to adhere, the Court of Vienna had absolutely promised to undertake nothing to his Prejudice; which Promise we are now extremely apprehensive she will declare void, and then the Consequences are easily foreseen.

Vienna, April 11. Her Majesty arrived in this City from her Castle at Schoenbrunn, in order to assist at the Playes of 40 Hours, which will be made To-morrow, and the two Days following, in order to obtain the blessing of God on her Majesty's Arms, during the Progress of the next Campaign. Her Majesty has ordered her Minister to the States of Suabia, who are now assembled at Ulm, to present a new Memorial, which will

very probably be sent to her Majesty's Ministers at most of the Courts of the Empire. The principal Article in this Memorial, contains a Representation, that the Rescript of her Majesty, dated the 11th of February, was intended to obtain a distinct Account, whether his Imperial Majesty was determined to observe the Convention at Schoenfeldt, and whether his most Christian Majesty will adhere to the Declaration made by M. de la Noue, and presented to the Dyet of the Empire; which are not at all touched in the Memorial relating to that Rescript, and to which her Majesty expects an immediate and categorical Answer shall be given.

Hague, April 24. On Wednesday last, the 22d Instant, their High Mightinesses the States General came to a Resolution, *Nemine Contradictante*, to grant, and send, as soon as possible, to the Assistance of his Britannick Majesty, the Succour of Twenty Men of War, demanded by Mr. Trevor, in his Memorial of the 14th Instant. The following is a Translation of the Resolution taken by their High Mightinesses thereupon.

Having been deliberated by Resumption upon the Memorial of Mr. Trevor, Envoy Extraordinary and Plenipotentiary of his Majesty the King of Great Britain, presented to their High Mightinesses the 14th of this Month, by which, in Consideration of the War declared by the French King against his said Majesty, he demands, that pursuant to their Engagements, they would please to furnish his Majesty provisionally with the other Part of the Succour stipulated by the Treaty of 1678, consisting of Twenty Men of War, the Whole of which is more fully set forth in the Acts of the 14th of this Month. It has been thought fit, and resolved, to give the following Answer to Mr. Trevor upon his said Memorial; "That their High Mightinesses, as to what regards the fulfilling of their Engagements, do abide by the Answer which they gave him the 2d of last Month; That, in Consequence thereof, they will send Twenty Men of War to the Assistance of his Majesty: That they gave Orders some Time since to prepare them, and that they will give fresh Orders for their being prepared as soon as possible. And in Extract of the present Resolution of their High Mightinesses shall be delivered by their Agent 'De Byemont to the said Mr. Trevor.'"

IRELAND

From the DUBLIN SOCIETY.

Last Week the Society determined the following Premiums. The Candidates for the Premium of 20 l. for sowing the greatest Quantity of Land with Clover, Trefoil, St. Foin, Lucern, or Rye Grass, last Season, were as follow.

Mr. Thomas Dance, of Murragh, in the County of Dublin, sowed last Season 44 Acres with Clover, and four Acres three Quarters with Rye Grass. In all 48 Acres, 3 Rood, 30 Perches.

James Wilson, of Parsons, in the County of Meath, sowed with Clover and Rye Grass, 52 A. 2 R. 10 P.

William Plunket, of Portmarnock, in the County of Dublin, sowed in Sept. and Octob. 1742, 53 Acres, four Perches, with Clover.

And in Sept. and Octob. 1743, 37 A. 3 R. Francis Leigh, of Drogheda, Esq. sowed with Rye Grass, 58 A. 3 R. 36 P.

Samuel Gerrard, of Gibston in the County of Meath, sowed with Clover Seed last Season, 68 A. 3 R. 4 P.

Accordingly the Premium was adjudged to Mr. Gerrard.

The Candidates for the Premium of 15 l. for marling the greatest Quantity of Land, were

Mr. Robert Beatty, of Springtown, in the County of Longford, who marled, with 400 Car Load to an Acre, 88 A. 2 R.

John Orson, of Mellistown, in the County of Louth, marled, 112 A. 1 R. 4 P.

Accordingly the Premium was adjudged to Mr. Orson.

The Premium of 15 l. for manuring the greatest Quantity of Land with Limestone, Gravel, or Sand, last Season, was adjudged to Mr. Ryn, of Newcastle in the County of Kildare, who gravelled and linded, with 600 Car Load to an Acre, 37 A. 2 R. 10 P.

The Premium of 10 l. for sowing the greatest Quantity of Land with Turnep Seed in 1743, was adjudged to Mr. Daniel Freeman, of Rapla in the County of Tipperary, who sowed with Turnep Seed, and fed 500 Weathers, and 200 Ewes, very fat on said Turneps, 62 A. 1 R. 12 P.

The Premium of 10 l. for the best Pound of Saffron raised in 1743, was adjudged to Mr. Samuel Tench, of

Ballyhealy in the County of Wexford, who produced 17 Ounces of Saffron, of good Colour, Strength, and Flavour, and well fived.

All the aforesaid Claims were well supported by proper Affidavits; but no Claims were made for the Premiums for sowing common Hay Seed, Liming of Land, and raising the greatest Quantity of Wheat off one Acre.

At the same Time the Society determined the following Premiums promised by the Rev. Dr. Samuel Midden.

The Claimants for the Premium of 25 l. for the greatest Quantity of Salt made in this Kingdom in 1743, for curing Fish, were

I. Mr. Phillip Peck, who has lately set up Salt Works in Glanard, Larn, Dundalk, Wicklow, and other Parts of this Kingdom, and makes as good Salt as any imported; and who, singly, made in 1743, above 300 Tons of Salt, and deserves Encouragement.

II. Messrs. Wilson, Sharp, and Company made 450 Tons of Salt in 1743, at Belfast; most of which was made use of there in Salting Beef, and curing Fish. Accordingly, the Premium was adjudged to Messrs. Wilson and Company.

There was no Claim for the Premium of 25 l. for taking and curing the greatest Quantity of Herrings in 1743, on Account, as it is supposed, of the Badness of the Season for that Fishery.

Eleven Pieces of fine Bone-lace were produced for the two Premiums of 10 l. and 5 l. The Gentlemen who were desired to be present to give their Judgment, unanimously adjudged the first to Anne Casey, at the Black Horse in Plunket-street; and the second, to Elizabeth Roberts on Lazen's-hill. Many fine Pieces made in Imitation of Brussels and Mechlin-lace, by the Needle, were produced; the first Premium of 10 l. was unanimously adjudged in like manner to Mrs. Page in Castle-street; and the second of 5 l. was adjudged to be equally divided between Mrs. Baker and Miss Raymond; their Specimens being reckoned to be equally good.

The Premiums of 5 l. 3 l. and 2 l. for the best, second best, and third best Pieces of Edging, were thus determined. The first was adjudged to Catherine Plunket, at the Horse-Shoe in Thomas-street; the second to Mary Casey, Daughter of Anne Casey, and the third to Catherine Ricks, at the Crown and Glove in George's-lane.

The Premium of 10 l. for the best Piece of Embroidery, was adjudged to Usher Haycock, of Ormond Quay; the rest of the Pieces produced for the lesser Premiums, were not judged to be Embroidery, and therefore not entitled to any Premium.

Several Pieces of plain and flower'd Velvets, most Black, some Blue, were produced for the Premium of 10 l. for the best Piece of Velvet made in 1743; they were all well wrought, of good Substanc, well cover'd, and good Colour. The Premium was unanimously adjudged to the Piece of black Velvet made by Mr. David Davys, of Marlborough-street; which is reckoned to be as good as any Genoa Velvet.

We have the Satisfaction to find, that all Kinds of Works, for which Premiums are given, constantly improve in their Quality as well as Quantity; the Manufactures of every one Year still exceeding in Goodness those of the Precedent Year.—Such are the good Effects of the Spirit of Emulation, that while many struggle for the Honour of the Prize, the Publick receives the Benefit of the Competition.

HOME PORTS.

Portsmouth, April 16. This Morning the Fleet under the Command of Sir Charles Hardy, sailed to the Westward.

Dover, April 16. Yesterday passed by this Road three Men of War, with about 70 Sail of Coasters, from the Westward. What was taken at Deal for three Men of War engaged on the French Coast, was nothing but the three Steeples at Calais. Many People here were of the same Opinion at first, till the Weather clear'd up. I heard the Firing very plain, and believe it was at Calais, where they were exercising their Gunners.

Deal, April 16. Wind N. W. Yesterday Afternoon his Majesty's Ship the Jersey sailed to the Westward. Arrived the Sheerness, Success, and Fox Men of War, from Portsmouth; the Content, Scorry, from Lymington; with several Coasters, but cannot get their Names. Came down the St. Patrick, Hester, for St. Kitts; the Alexander, Russell, for Maryland; the Winchester, Smith, and the Mary, Malignon, both for Oporto. Remain all the Men of War, as above, with the Sapphire Man of War.

Graveland, April 16. Passed by the St. George, Padre, from Carolina; and the Lady Eliza, Bréedimus, from Amsterdam.

L O N D O N.

The Lusitania, Blany, from Boston for Genoa, is lost coming out from Mahone.

We hear his Majesty will soon review the Regiment of Swift Volunteers, lately entered for his Service, under the Command of Col. Dejean.

There are a great Number of impress'd Men now in the Gatehouse, Westminster, and likewise in Tothill-fields Bridewell.

The Commissioners of the Land Tax for the City and Liberty of Westminster, have agreed to sit Day by Day in the Vestry Room in St. Margaret's Church Yard, in order to examine such Men as shall be impressed for his Majesty's Service, that they may not be confined longer than is necessary.

Four Companies of the First Regiment of Foot Guards are marched out of the Tower, and quartered at Whitechapel, and other adjacent Parts, in order to make room for the new impress'd Men, who are speedily to be brought there.

The Books of his Majesty's Ship the Medway are sent to Portsmouth, to pay the Wages due to her Company to the 31st of December 1743.

From the London Gazette.

St. James's, April 16. This Day the Heer van Boetlaer, Extraordinary Minister from the States General, had his first private Audience of his Majesty, to deliver his Letters of Credence; to which he was introduced by the Right Hon. the Lord Carteret, one of his Majesty's Principal Secretaries of State, and conducted by Sir Clement Cottrell Dormer, Knt. Master of the Ceremonies.

London, April 14, 1744.

Notwithstanding any former Orders, or any Advertisements in the Gazette, or other public Papers, the Three Regiments of his Majesty's Foot Guards are at Liberty to receive Volunteers from the Commissioners, in all the Counties where they shall think proper to send to Recruit.

By Command of the Field-Marshal
Earl of STAIR,
C. Ellison, Dep. Adj. Gen.

Admiralty-Office, April 14, 1744.

THE Lords Commissioners of the Admiralty being desirous to invite and encourage Able-bodied Landmen to serve on board his Majesty's Ships of War, and having Reason to hope, that from the Willingness several have shewn to do so, many more would come and enter, if they were rightly inform'd of the Methods of going about it, and of the Encouragements the Law allows them; their Lordships do hereby publish and advise, that all such Able-bodied Landmen, as are not under the Age of Nineteen, nor more than Thirty-five Years, who are willing to serve his Majesty at Sea, do go before some Justice of the Peace, Magistrate of a Town, or a Commission Officer of the Fleet, who are hereby desired to give them a Certificate of the Day of their Appearance, and of their declaring to them their Intentions to repair on board a Man of War, and at what Port; which Certificate shall protect them for a reasonable Time to proceed to the said Port: And when they arrive there, if the Port be Chatham, Portsmouth, or Plymouth, they are to present themselves to the Commissioners of the Navy; but if they come to London, they are to apply to the Regulating Captains, at the Castle in Mark-lane, which Commissioners and Regulating Captains have Directions to send them on board such Ships of War as they shall choose to serve in: And for their Encouragement to enter into his Majesty's Service, they shall enter into Pay from the Day of the Date of the Certificate of their Entry; and shall be allowed a Penny a Mile Conduct Money, from the Place they set out from; and also shall receive an Advance of Five and Thirty Shillings before the Ship they go on board proceeds to Sea.

To the PUBLIC.

AS the Greatness of the Physician's Fees generally deter People from sending for them, while they can be of any real Service, or till Nature is quite exhausted, it has long been my Endeavour (not without extensive Practice and Success) to invite a timely Call, and discharge from the Sick Bed those ignorant Pretenders who usually hover round it, with baneful Officiousness, by prescribing to the Poor gratis, and of others take only Half a Crown, or, where it can be afforded, a Crown.

I attend at any Call, but am to be spoke with in particular from Eleven till One, and Five to Seven, at Mr. Milner's, the Bottom of Warwick-Court, Holbourn, just facing the Court.

The late vigorous Attempts of the Emulraries of Rome, to diffuse their poisonous Tenets among a free and Protestant People, and that under the happy Government of an illustrious Protestant Prince, must raise in every sober and sensible Mind a just Indignation against them, and a tender Compassion to the Weak and Ignorant, who are most exposed to such horrid Delusions. Surely, never did any Thing, so much the sacred Name of Religion, appear in the World, as this stoutrously absurd and detestable as Popery, which is a Merchandise of Men's Lives and Souls, and lies in direct Contradiction to Reason and Revelation, to Morality and Common Sense, and to all the dearest Interests of Civil Liberty, of Liberty, Conscience, and Eternal Salvation.

Sold only by the Inventor and Maker, GEORGE LINDSAY, Watchmaker, at the Dial facing the Fountain Tavern in the Strand, London.

A General Reflecting Pocket Microscope, published by the Royal Patent, February 17, 1742, as portable as a Snuff-Box, yet capable of all the Nature of Microscopes admits, with Ease and Expedition, and without the Trouble of any Screw, to be used with Pleasure in a Field or Garden, and put up again in a Minute's Time: All Kinds of Objects may be view'd, in any Situation, without offending the Eye with the Light either of the Day or Candle. This Instrument has been approved by Numbers of the greatest Judges, who were pleased to honour it by their Subscription. The Pleasure of it to all others, commonly known, or since published, will be best determined by Comparison, as any Gentleman or Lady may be satisfied, by seeing the other Sorts and this together, at the Maker's, as above directed.

Mr. GREENOUGH's TINCTURES for pre-
serving the **TEETH** and **GUMS** of a beautiful Colour,
and for Curing the **TOOTH ACH**. Publish'd by Vir-
tue of the **KING's ROYAL LETTERS PATENT**:

An **ABSTRACT** of which is as follows,

GEORGE R.

GEORGE the Second, by the Grace of
God, of Great-Britain, France, and Ireland, King, Defender
of the Faith &c. to all whom these Presents shall come greeting.
Whereas Our Trusty and Well-beloved **Thomas Greenough**, of St. Sepulchre's, in Our City of London, Apothecary, has represented unto
Us, that at a considerable Expence, and much Study, he has at last
found out and invented a **MEDICINE** that destroys the **SCURVY**
in the **GUMS**, fastens the **TEETH**, preserves them white and beau-
tiful, sweetens the **BREATH**, and effectually cures the **TOOTH-**
ACH, as Multitudes of Our Subjects have happily experienced, &c.
And We being willing to give Encouragement to all Arts and In-
ventions which may be for the publick Good, know ye therefore,
that We, of Our especial Grace, certain Knowledge, and mere Mo-
tion, have given and granted, and by these Presents, for Us, Our
Heirs and Successors, do give and grant unto the said **Thomas Green-**
ough, his Assigns, &c. and such Person only as they shall agree with,
Our especial Licence, full Power, sole Privilege and Authority, to
vend the same, &c. And we do by these Presents strictly command
all our Subjects not to put in Practice the said Invention, nor in any
Way counterfeit, imitate, or resemble the same, as they will an-
swer their Contempt of this Our Royal Command.

In Witness whereof We have caused these Our Letters to be made
Patent.

Witness OUR SELF at Westminster, the 9th Day of February,
in the Seventh Year of Our Reign.

Notwithstanding the Complaints of the **Teeth** and **Gums** are so ge-
neral, and the Pain of the **Tooth-Ach** so intense and intolerable, no
Medicine has yet been offer'd the Publick which carries the least Shew
or Probability of curing either. For cleaning the **Teeth**, and making
them white, the **Powders** have hitherto bid the fairest, and will in a
great Measure answer that Purpose; but then the Remedy is worse
than the Disease, for those very **Powders** rub away the **Gums**, wear off
the Enamel from the **Teeth**, leave their bony Substance expos'd to Air,
and thereby subject the **Teeth** to Decay: A Consequence bad
enough!

Nor are the Methods of coring the **Tooth-Ach** much better calculat-
ed, there being nothing yet propos'd but **Drawing**, or the Use of such
Medicines as tend to destroy the **Nerve** of the **Tooth**, and of course the
Tooth itself.

The Reason we have hitherto had no effectual Remedy for either
of these Complaints, seems to be this, That the Cause of the Disorder
has not been rightly understood. 'Tis what the Faculty have seldom
concern'd themselves with, and therefore it has for the most part been
left to the Province of People quite unskill'd in Anatomy and Phisick,
from whom little Benefit can be expected.

Experience tells us, that a **Diffusion of Humours** is the true Cause of
the Pain, and that a too weak and lax Texture of the Fibres that com-
pose the **Gums** (the Consequences of which are, that the Blood and Humours
of the Parts become liable to a Stagnation, or weak Circulation,
from whence they grow putrid, sharp, acrimonious, and corrosive) is
the true Reason of the other Disorders of the **Teeth**, and of the **Scurvy**
in the **Gums**.

To cure, therefore, the **Tooth-Ach**, a Medicine should be applied
that will both attenuate and dissipate the Humours, and prevent a fur-
ther Diffusion; and to remedy the other Disorders of the **Teeth** and
Gums, such Things should be made Use of as will strengthen and brace
up the Fibres, and promote the Circulation of the Humours; and 'tis
upon this Basis that the present Medicine is founded.

The above Medicine, that it may be
more effectual, and be more conveni-
ently used, is divided into two Tinc-
tures:

The One for Preserving the
TEETH,

Which in a few times using perfectly
cures the **Scurvy** in the **Gums**, causes
them to grow down close and regular
to the **Teeth**, makes the foulest **Teeth**
white and beautiful, preserves them
from growing rotten, and keeps such as are decay'd from becoming
worse; and in a little Time removes the Cause of an ill-scented Breath,
except where the **Lungs** are ulcerated. Each Bottle of this Tincture
is seal'd with the above Impression in Red Wax. Price One Shilling.

The other for Curing the
TOOTH-ACH,

Even when most violent; Into which
a larger Proportion of some of the In-
gredients (with a little Variation) is
put, to make it more immediately ef-
fectual. Each Bottle of this Tincture
is likewise seal'd as in the Margin,
with Black Wax. Price One Shilling.

N.B. By Virtue of the Patent above-mention'd, I have appointed
John Newbery, my only Vender of these Tinctures, to whom all
Persons are desir'd to apply for them, at his Warehouse, the Bible and
Crown, near Devereux-Court, without Temple-Bar, London, and
at his Shop in Reading, Berks: At which Places, Merchants, Cap-
tains of Ships, and Country-Dealers, will have good Allowance to sell
again; and particular Bills in any Language will be printed for such
as take Quantities to Foreign Parts.

Sold also retail at my House, near St. Sepulchre's Church, on Snow-
Hill, London.

THOMAS GREENOUGH.

To prevent Mistakes observe the following Direction.—If
you have any Disorder in the **TEETH**, **GUMS**, or **BREATH**, ask
for the Tincture for preserving the **Teeth**; but if you are affliced with
a Pain in the **TEETH** only, then ask for the Tincture for curing the
TOOTH-ACH.

JOHN GARNER,

At Mrs. Spencer's, the Old Jar, in Princes-street, near
Cavendish-square.

Administers infallible Remedies for the

following Disorders, which have been experienced to be
so for upwards of Sixty Years, in Foreign Parts, viz

1. Effectually to cure the most inveterate Canker in the
Mouth, after it hath been adjudged incurable.

2. Also to cure effectually the Scurvy in the Mouth.

3. To prevent the Teeth from rotting, and the Gums from
wasting; and to make the latter grow, and the former white.

4. To consume Corns intirely without any Danger or Pain,
so as never to grow again.

5. To raise Toe Nails which grow into the Flesh, and to
cause them to grow as they should, without Cutting Danger,
or Pain.

The Truth of the above is well known to several Persons
of Distinction, and which he is ready to make appear to those
who doubt.

Dr. ROBERT EATON'S
BALSAMICK STYPTICK,

Truly prepared and sold at the Doctor's late Dwelling
House, now Mrs. DUTTON's, in Salisbury-Court,
Fleet-street.

THIS Medicine restrains, in a most

surprising Manner, all internal as well as external
Hemorrhages, i. e. it infallibly and quickly stops all danger-
ous Bleedings at the Nose or Gums, spitting or vomiting
Blood; also the immoderate Flux of the Hemorrhoids or Men-
ses; bloody Urine or Stools, bleeding of large Wounds, &c.
(it used according to the plain Directions given with it) as
will appear by the Certificates of several Eminent Physicians,
and in the large Account of this Medicine, written by the
Doctor himself, and dedicated to the College of Physicians
a little before his Death.

It keeps good for many Years, at Sea or on Shore, in all
Climates; therefore must be universally Useful.

The Doctor not only obtaining his Majesty's Letters Patent
for the sole Vending of this most Excellent Medicine; but
also a Clause in a late Act of Parliament, exempting this
Medicine from the Inspection of the Censors of the College
of Physicians, to which all other Medicines are liable.

N.B. The late Learned Dr. CHEYNE, in his Excellent
Piece, entitled The Natural Method of curing the Diseases of
the Body, &c. prefers Eaton's Styptic to Helvetius' and
other Stypticks; and speaks of it as follows:—'Every one
'knows the agglutinating Quality of sweet Blood, and I ap-
'prehend it is to this, that Eaton's Styptic owes its soft,
'mild, soothing Efficacy.—It is more mild, substantial
'and soft, than the mildest Steel Preparations, and more fit
'to patch a Hole, or grieve up a Rupture, or to give a Balsam
'to the acrid and inflam'd flowing Blood of the Patient. He
'says, he is confirmed in this by a Physician of great Worth
'and Candor, who has great Opportunities of dealing in such
'Cases, by his Practice in Midwifery. See p. 182.'

THE Astrologer. A Comedy. As it
was Acted at the Theatre Royal in Drury-Lane.
'Men are Prodigious to their Follies, but Milder to their
'Virtues.'

Printed for M. Cooper, at the Globe in Pater-noster Row.

The only short and infallible Cure

for that reigning Disease the **SCURVY**, and all Scorboutic Humours,
who arrived to the highest and most inveterate Degree, or of
ever so many Years standing, and that without any sensible In-
convenience or the least Purging, which by an unaccountable Infirmity
is generally advised, although always found rather to increase
than diminish the Scurvy than cure it.

By the so much famed and most pleasant Chymical Drogh

WHICH, without the least Trouble

Confinement, or any Disorder whatever, does so completely
the true Cause of the Scurvy, and intirely destroy it, and
Scorboutic Humours and Effects, Root and Branch, so as never to
return again, as many Thousands of both Sexes have experienc'd,
and as all who take them in 3 Days time will be convinc'd, for
they almost instantly alter the morbid State of the Juice, purify
Blood, sweeten all the Fluids, cleanse them from Impurities, and
directly clear the whole Habit from all Spots, Blisters, black and
blue Marks, Itchings, foul Eruptions, or Breakings out, Weakness
of the Limbs, languid Heaviness of the whole Body, watery
Pains, Weakness of the Back, and all the vast Variety of symp-
toms by which the Scurvy imitates and often lies conceal'd under
the Appearance of the Rheumatism, and many other Disorders.

And for strengthening the Stomach, immediately creating a good
Appetite, causing a regular and easy Digestion of Food, and curing
all windy Effects and Disorders of the first Passages (whereas the
usual Head-achs, Vapours and other Indispositions) no Mixture
other Medicine upon Earth can compare with them, inasmuch
that besides infallibly curing the Scurvy in all its Stages and Ap-
pearances, they also assuredly and immediately cure the Gout, and
other Chronic Diseases, (which are chiefly occasioned by indigestion
and stultic Crudities in the Stomach and Bowels) and thereby
prevent Fevers, Agues, and other acute Disorders.

They are wonderfully Cordial and Restorative, strengthen and
enliven the whole Machine, and as soon as taken, make the Patient
pleasantly Lighter, Brisk and Vigorous to admision, and so
good for all Sorts of Persons, to preserve as well as to procure a
sound and healthy State of Body.

But the great Reputation these famous kind and pleasant Chy-
mical Drops have so universally gain'd among Persons of Estee-
m for their suddenly and infallibly curing the Scurvy and all Scorb-
outic Humours, and other Chronic Diseases, in such an easy and
agreeable Manner, have occasioned many to imitate them, and
under the same, and others under other Names: Be careful there-
fore not to be deceiv'd; but be sure to have the Right, which
the Author's special Appointment, are to be had only at the dis-
tillers, at the Two Blue Posts, in Haydon-Yard, in the City
women, at 3 s. 6 d. a Bottle, with Directions.

Concerning Gleet and Seminal Weakness
of all Kinds.

ALL judicious Physicians and Surgeons

allow, that nothing is more difficult to cure than
Stubborn Gleet and Seminal Weakness, which is
often'd by too severe purging for Venereal Injuries, violent
Strains, Pollution sui, or any other Cause whatever, and
that they are dangerous in their Consequences, as well as
difficult to cure, is as certain, since they exceedingly weaken
the Generative Faculties, infect the whole Nervous System,
often bring on Hectick Feats, a Tabes Dorsalis, or Consump-
tion of the Back, or an Atrophy or Nervous Consumption,
which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled
with Old or Stubborn Gleet, Seminal Effusions, Intermi-
ttary Emissions, excessive Nocturnal Pollutions, or any Weak-
ness of the Kidneys, Ureters, or Bladder, the Difficulty or
Incontinency of Urine, or Difficulty of holding their Urine,
would doubtless be glad to meet with a certain, safe, and
speedy Cure, which they most assuredly may, by using
only a small Quantity of a transcendent BALSAMICK RE-
STRICTIVE ELECTUARY, now published for a general Use,
after having for many Years been experience'd never to
fail perfectly curing the most Stubborn Gleet known, in a
few Days, without Difficulty or Trouble; as also all
other Weaknesses of the Back, Reins, Seminal Vessels, and
Urinary Passages, which almost instantly cures, brings
to rights and restoring all those Parts and Passages to their
natural Tone and pristine Vigour, in a very extraordinary
Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY
is neither disagreeable to take, nor occasions the least Dis-
order, but is a wonderful Restorative in all Weakness and
Consumption of any Kind, and particularly strengthens the
Back, Reins, Seminal and Urinary Vessels to an immense De-
gree, inasmuch that in any Debility of them, one Dose of it
does more than ten of any other Remedy yet found out; and
all Persons fatigu'd with Gleet or Seminal Weakness, or any
Sort, or Weaknesses of the Urinary Vessels, who take it, will
in three Days time find it so very effectual, that they will be
most agreeably surpris'd at it.

When a Medicine will infallibly accomplish such a safe,
speedy and perfect Cure of such difficult Maladies, as Gleet
and Seminal Weaknesses are, as this Great Remedy truly and
directly will, even after all other Means and Medicines have
been tried in vain; too much cannot be said in its Praise.
All who ever took it for any of the above-mention'd Purposes
have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Efficacy,
one Pot alone being sufficient in most Cases to accomplish
a Cure, worth ten times as much, and by the Author's
special Appointment, is to be had only at Mr. Radcliffe's
Toy-shop, at the Rose and Crown against St. Clements
Church-yard in the Strand, ready seal'd up, with a full
Instruction, which whosoever carefully reads will easily
know, when the Gleet or Weakness he is affliced with
succeeds a Venereal Injury, whether all the Malignity of
the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamick Electuary.
